Dear Elected Officials,

We are Richard F. Finch, Jr. and Gloria Finch, we live in Columbia, SC. and this is concerning docket number 2020-229-E. We are totally against Dominion Energy South Carolina's Solar choice metering tariff implementation. We understand they plan to discontinue customers savings, placing a high fixed charge on us because we are Solar customers, charge more to customers who have more panels, and give them fewer credits, having Solar Panels put power back on the grid for other customers to use.

Most importantly of all Solar Panel are helping to save Planet Earth and provide jobs for South Carolina Citizens. We need the South Carolina Public Commission (PSC) to support Energy Freedom in South Carolina. and stand with the citizens. We are looking forward to you supporting Energy Freedom in South Carolina.

Sincerely,

Richard & Gloria Finch
